November 13, 2016

Greetings,

It is my pleasure to commend the Daughters of Zion - Women of Destiny Transformational Wellness Mentorship Program for the outstanding work that you have done to develop young ladies into our future leaders. By teaching core values with a focus on development principals you are playing an active role in promoting a lifestyle of wellness that nourishes the total woman... mind, body and spirit.

The five month program offered by the Daughters of Zion builds communication skills, financial management, physical fitness and basic nutrition awareness. Those who successfully complete the program are equipped for success and prepared to give back through community outreach, ministry and the arts.

As commissioner of Miami-Dade County, on behalf of the residents of District 9, I salute the Daughters of Zion and the 2016 class of honorees. I wish you continued success on your mission to "help transform young ladies into powerful creative Women of Destiny."

Sincerely,

Dennis C. Moss  
Miami-Dade County Commissioner  
District 9
